Caring and concern from corporations Donation of assembled bikes to outreach youths

Through the liaison of The Events Team, Wyeth (HK) Holdings Company Limited donated 12 new bicycles to the outreach youth of our Yuen Long District Youth Outreaching Social Work Team on 14 September. Representatives of our outreaching youth and our staff received the bicycles and at the same time we introduced our outreaching service in the event. That day was in fact a training for corporate staff, elements of corporate responsibility were added to the training. The donation was a display of corporate care to us and made the training more rewarding.

We would like to take this opportunity to thank the two corporations for the arrangement. We hope cycling could build up better relationship with our youth and enable them to reconnect with the community.
