## Virus Fighter Kit No.3

Design & Illustration: Dear me,

Kids, the Coronavirus disease 2019 (COVID-19) is spreading quickly.

When going out, you have to wear a mask to protect yourselves from the virus!

Let us design a unique and awesome "Super Mask". We can learn and practice how to wear and take off the mask properly with our own "Super Mask"! It is POWERFUL! Cut the "Super Mask" out and don't forget to prepare two elastic strings. Now, follow the steps to make it!

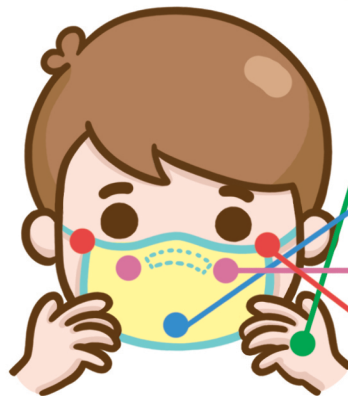

Let's do it!

1. Fold: on the blank side then open it
2. Fold again: fold along the line to make it like an accordion
3. Punch: punch or make 4 holes at the 4 corners.  
(Tips: don't punch too close to the edges)  
Pull the strings through the holes on both sides and tie knots.

Fighting Virus, I can do it!

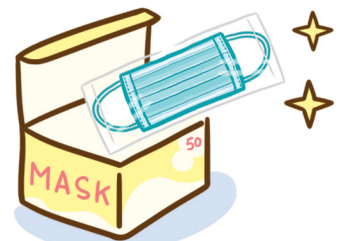

1. Wash your hands thoroughly with soap for 20 seconds before putting on the mask.
2. The coloured side faces outwards with the metallic strip uppermost. Position the strings around both ears.
3. Mould the metallic strip over nose bridge.
4. Extend the mask to fully cover mouth, nose and chin.

### Important Tips for all Virus Fighters!!

Wash hands thoroughly before and after putting on and taking off the mask. Avoid touching the mask.

Discard the used masks into a lidded rubbish bin and wash hands immediately.

No reuse of masks.
